DESCRIPTION:

Buffalo Trace Distillery has been producing exceptional Bourbon Whiskey for over 200 years. Their history is unmatched, having a timeless dedication to respecting the past, while still staying on the cutting edge of innovation. That innovation is alive and well with their unique barrel selection program. A one-of-a-kind experience that begins with choosing a single barrel, and working alongside their master distiller to create a flavor profile that we know you will love. We sampled numerous barrels until we found the singular characteristic that stood out the most. Introducing 'Barrel No. 12', a Bounty Hunter Private Selection just for you.

TASTING NOTES:

Rich and inviting, this private selection is truly a vanilla and molasses-driven gem. Notes of dark brown sugar and caramel give way to subtle undertones of fresh mint and tobacco. The finish is long and round, developing further with the addition of a few drops of water.
